TIPS

## WELCOME TO ABSOLUTE CUSTOM WOOD

We are a small band of craftsman dedicated to doing the project right the first time!

Our desire is to provide the highest quality garden structures within an affordable price range, and all with excellent customer service.

We know a garden structure can be crafted with care and created with the same attention to detail commonly found in fine, custom woodworking, which is often lacking in today's fabricators.

We specialize in creating arbor, gazebos, trellises, pergolas, decks, fencing, pavilions, and more! What a great way to add beauty to your yard or garden. So simple, yet well-crafted.

Visit our [Pricing](#) page to see pictures of project samples we can build for you.

For a free estimate of your custom project, call us at 404-861-5851 or send an e-mail to:

TIPS

## TIPS

When you are getting bids for an arbor or deck, do you know what you are paying for and where contractors sometimes cut corners? Do you have a good idea how much a patio cover or gazebo should cost?

Knowing what to ask and expect from an individual contractor in any field is difficult, sometimes frustrating and can be intimidating.

Do you know the difference between a pergola and an arbor? Is there a difference?

Below, we've provided you with a list of Tips that we hope will be helpful when communicating with contractors and to give you an understanding of some of the woodworking terminology.

### [Free vs. Paying For an Estimate](#)

First, I think giving estimates is part of the basic service, so all my estimates are FREE. I would be cautious of someone who wants to charge you for spending half an hour to give you a bid.

ABOUT US

TIPS

## BUILDING STAGES

To give you an idea of what happens during the construction of your custom-built project, the pictures below represent, in stages, the actual building of a pergola.

Customer satisfaction is of utmost importance to us. Below is a testimonial from the customer that had the pergola built (see pictures below) and his referral of Absolute Custom Woodworking.

*"Your the man. A neighbor just knocked on our door and took a look at our pergola. He wants to call you to build a portico for him. We are also proud of your work and I continue to share your craftsmanship with our friends, neighbors, and business colleagues. When they actually see your work and I tell them about your meticulousness and your reliability they are impressed. Russ, keep up the good work." R.S., Marietta*

*"People continue to compliment us on the work you did. A friend of mine who built his house ragged on me because I had the pergola built. He said we could have built the pergola for a lot less money. When he came over, however, he was very impressed. He said we would not have done such a nice job. The owner of Yard Backyard came over to give us an estimate on a backyard storage shed. She was also very impressed. She would like your number to discuss if you were interested in doing some work for them as a sub. Let me know if you would like me to pass on your number." R.S., Marietta*
